■ Servizi e Seta: Tessitura Spring/Summer 2026

Style innovation teamed with new company vision

[home](#) | [magazine](#) | [yarns](#)

The **Tessitura S/S 2026 collection** represents the Biella-based company's ongoing commitment to style **excellence**, which has been amply demonstrated in recent seasons. A comprehensive offering that meets the requirements of a vast range of creative projects thanks to a combination of cordonnet and crêpe yarns in a number of varieties, in addition to confirming the stock service which offers crucial immediate availability to designers. Quality, versatility and comfort are seen and felt in the **Mulberry** silks, in

the new **Cordoshappe** 4/120 SS and in the **Opacum** silks in **Cordum** 4/120 SS cordonnet varieties, while shantung is available in the **Cordo Shantung** Nm 2/50 ZZ version.

A broad selection of crêpe yarns is also offered with **High Twist Shappe** Nm 2/120 and **Crespum** Nm 2/118 silks, which add to the quality and innovation that ensure an all-round experience for every taste and style. The 2026 summer collection also features finer versions of crêpe linens and cordonnets, such as **Cordolino** Nm 2/50 ZZ, the ideal yarn for fresh, contemporary creativity. On the corporate side, **Servizi e Seta** surprises once again with its ***silk different*** claim - joining an inspirational and productive flow that transforms each creation into a masterpiece of comfort and style. And this is where the

new vision focuses its energies, enhancing these innovative elements by dedicating itself to the customisation of upcoming collections to offer those unique and exclusive style advantages, thus reinforcing its role as a pioneer in the sector.

At the 62nd edition of Filo, Servizio Seta launched its new *silk different* campaign with a message about its boundless textile experience, from the historical tradition

of the Biella district to Chinese manufacturing expertise in an indissoluble link between past and present. **Silk**, a product of Asian excellence, crafted with care and skill for centuries is interwoven with Italian creativity and transformed into textile work of inimitable elegance. A global diffusion oriented towards the search for exclusivity to promote garments permeated with excellence, unique and inimitable. Just as trade winds and monsoons change with the seasons, *silk different* also wishes to convey a sense of ongoing change, serving clients by bringing together the best of the global textile tradition to constantly provide a unique, extraordinary product.
